

A man in a red cap, sunglasses, and waders is fly fishing in a river. He is standing on a rocky bank, holding a fishing rod. The river flows over large, dark rocks. In the background, there are evergreen trees and mountains under a cloudy sky.

Snowbee
EST 1978

FIRST INTRODUCED OVER 40 YEARS AGO...

when the original range of Snowbee Lightweight PVC Waders was developed and distributed in the UK, we've grown considerably to include a full range of quality fly fishing products aimed at enhancing your fishing experience.

Over four decades later, our guiding philosophy has not changed. We continue to push forward in our effort to equip you, the modern-day angler with the most technologically advanced fly fishing gear and apparel at a price you can afford.

NEW FOR 2022

Snowbee

SIGNATURE SERIES

"This rod has passed all of the critical needs a stillwater rod requires when fishing lakes, ponds and reservoirs, both big and small. It can cut a wind when you need it to, and easily meet the demands of big trout. That's why I have chosen it for my signature rod with my name on it."

It is a proven winner for me, and it will be for you"

DENNY RICKARDS | STILLWATER SPECIALIST

DENNY RICKARDS SIGNATURE SERIES STILLWATER 9'0" 6WT

Because strong winds are a common occurrence on lakes, the fast action construction of this rod utilizes tri-modulus carbon blanks that are light and crisp in nature, while still capable of storing excess power in the butt section for longer casts. This allows the rod to power through wind but also maintain a delicate presentation should waters stay calm. By pairing these versatile blanks at the with oversized SIC lined stripper rings and high-lift snake guides at the request of Mr. Rickards, accuracy and line control, even in wind, is unparalleled.

The blanks are finished in a unique lustrous olive-green coating for a stealthy, yet elegant look while the brushed aluminum reel seat featuring an olive-green burl wood insert complements the blanks nicely. Combine this with Denny Rickard's golden signature embossed onto the rod itself and you have a fly rod with timeless appeal, and performance to match.

- 4-piece olive-green Tri-Modulus Carbon Technology blanks
- "RICKARDS" embossed uplocking, anodized reel seat
- Extra large SIC lined stripping guides w/ high-lift snake guides for a smoother presentation
- High-quality full-wells cork grip
- Reinforced fern-green cordura rod tube embossed with Denny Rickards' signature + matching fly rod bag

NEW FOR 2022

Snowbee

SIGNATURE SERIES

"I am delighted to work with Snowbee to release a signature 10ft 4wt rod that I have personally approved for the purpose of wet fly and nymph fishing."

It has long been my wish to have a rod that suits the demands needed for wet fly and nymph fishing. In the case of wet fly fishing, the rod has to be an integral part of allowing the angler to manipulate the animation of the flies as they are presented to the trout.

The action of this rod, more or less a mid-fast action with a soft tip, enables that to happen. Further, the action of this rod is very suited to the needs of the nymph angler by the many different means of presenting nymphing techniques"

DAVY WOTTON | WORLD CLASS ANGLER

DAVY WOTTON SIGNATURE SERIES WET FLY & NYMPH | 10'0" 4WT

With Euro-nymphing becoming ever-more popular, our newest Signature Series collaboration with world-class angler Davy Wotton is the perfect marriage of value for performance. The nimble tip is versatile enough to utilize all various nymph rigs while blending just the right amount of suppleness for extreme precision when landing fish.

The Davy Wotton Signature Series Wet Fly & Nymph Rod is offered as a 10ft 4wt, which affords many more advantages over a standard 9ft rod. Most importantly, it enables far better line control for drift, with less fly line to be on the water surface, while simultaneously providing easier ways to mend and control line drift to eliminate drag. Able to facilitate the use of longer leaders for a more European style of nymph fishing, this rod offers more versatility than any shorter nymph rod.

The latest in Tri-Modulus Carbon Technology blanks
 "WOTTON" embossed uplocking, anodized reel seat
 Fast but supple tip for precision and control
 Extra large SIC lined stripping guides w/ high-lift snake guides for a smoother presentation

10211 Prestige G-XS Fly Rod 7' 6" #1

10210 Prestige G-XS Fly Rod 7' #2

PRESTIGE G-XS FLY RODS

**SNOWBEE ORIGINAL PURCHASER
LIFETIME GUARANTEE**

The Prestige G-XS fly rod was developed utilizing cutting edge resin technology with high-modulus carbon graphite, and is by far the best performing fly rod we have ever produced. At the molecular level, this material is 200 times stronger than steel, and a millionth of the diameter of a human hair, making it the thinnest, lightest and strongest material ever known.

By applying these hugely critical components in the design and build, the Prestige G-XS fly rods have now become the lightest, most powerful and flexible rods that we've ever produced. Despite its fast action the rod is not stiff and is capable of producing an incredibly smooth and powerful cast with the sensitivity of the rod tip.

Unique to the Prestige G-XS, this essential flex in the tip design helps to keep fish set, even when only lightly hooked. That makes the casting experience unmatched, and we've utilized this same philosophy to develop the ultralight 1 and 2 weight models which take full advantage of this strength and flexibility, offering a silky smooth action with generous amounts of power.

- 4-piece ultralight high-modulus carbon graphite blanks utilizing cutting edge resin technology for power and sensitivity
- Fast action with high lift snakes for extreme distance casting
- Deep bronze finish with matching whippings
- Anodized silver/gold ultralight aluminum reel seat with maple burl wood inserts
- Cordura rod tube with matching rod sleeve

10013 Spectre RMX Fly Rod 9' #6

10016 Spectre RMX Fly Rod 10' #7

SPECTRE RMX FLY RODS

**SNOWBEE ORIGINAL PURCHASER
LIFETIME GUARANTEE**

The Spectre RMX range uses the very latest carbon fiber material technology whose performance is un-matched at this price.

Now incorporating the very latest American Tackle Micro-Wave Stripper Guides, the Spectre RMX range has effortless distance and line control. The MicroWave Line Control System immediately tames coils and line slap, allowing the fly line to travel the rest of the guide train in practically a straight line, greatly reducing friction, thus allowing for increased line speed and accuracy.

- Blanks made of 40-ton carbon fiber blended with 36-ton to deliver a crisp middle-to-tip action.
- Incorporates American Tackle Microwave Stripping Guides
- New Snowbee proprietary, high-modulus carbon technology
- Natural finish blanks with a clear matte varnish, and transparent thread coatings
- Cordura rod tube with matching rod sleeve

DIAMOND² FLY RODS

**SNOWBEE ORIGINAL PURCHASER
LIFETIME GUARANTEE**

Since 1994, the name Diamond Fly Rod has been synonymous with Snowbee and has built a loyal following among fly fishers. Now, our top selling Diamond² range incorporates the very latest in fly rod design and material technology.

Utilizing our tried and true Tri-Modulus Carbon technology these blanks are fast and light, while retaining a crisp, middle-to-tip action. Using the finest quality materials available we spared nothing in producing the best looking, best fishing 4-piece fly rods we could achieve at this price. This range has been designed for river and still-water fishing, but we also offer longer, lower line weight models, for river fishers who favor the lighter Euro-Nymphing styles of fishing.

Finished in a lustrous deep olive color, with self-color whippings, subtle gold graphics and brushed aluminum reel seats, with olive green burl wood insert complementing the color of the blanks. Combine all of these and you have a rod with timeless appeal.

- 4-piece Tri-Modulus Carbon blanks
- SIC lined stripper rings, high-lift snakes and oversize tip rings for effortless casting performance
- Lustrous olive-green stealth finish
- Burl-olive wood reel seat insert
- Lightweight, uplocking, anodized Diamond reel seat
- Mid-Fast action
- Cordura rod tube with matching rod sleeve

10663-4 Classic Fly Rod 9'6" #6/7

CLASSIC FLY RODS

**SNOWBEE ORIGINAL PURCHASER
LIFETIME GUARANTEE**

The Classic Fly Rod has proven to be as popular with novice anglers as well as experienced anglers who are in the market for a quality back-up rod at an affordable price.

The 6' and 7' Brook rods are ideal for fishing ultralight on small brooks and streams. The 8'6", 9' and 10' rods are the perfect all-around rods. Whether fishing rivers or small stillwaters, these rods provide effortless casting for all-day fishing. Sensitive tips, but with enough power reserve to tame river fish. And the 9'6" rod is a larger, more powerful rod designed for larger stillwaters and where additional distance is required. The middle-to-tip action delivers effortless power and distance, also making for a great single-handed salmon rod.

- Fast action blanks to generate high speed and distance
- A-grade cork handles
- Lightweight aluminum reel seat finished in black
- Fighting butt extension on #6-7wt rods
- Lined stripper rings, high-lift snake intermediates and oversized hayfork tip rings
- Finished in a rich hazel color with matching whippings
- Cordura rod tube with matching rod sleeve

10548 Spectre #5/6

10548S Spectre #5/6

SPECTRE FLY REELS

Precision CNC machined from high grade, aircraft aluminum bar stock, the unique design removes the maximum amount of excess metal, whilst retaining optimum strength and rigidity, for an ultralight and efficient rod/reel balance.

The fully sealed multi-disc cork and stainless steel center drag offer superb performance with minimal start-up inertia, while the large arbor design allows faster retrieve, more consistent drag, performance and minimal line memory. The stainless steel main spindle, coupled with the one-way roller clutch bearing, provides instant drag control when that "smash take" catches you by surprise.

The popular #5/6 and #7/8 models are also available in cassette spool kit configurations as well. Built to the same exact standards as the standard Spectre Reels, but fitted with a precision molded, poly-carbonate cassette spool. The kit includes one cassette reel, three spare spools, and a carrying case.

- Precision CNC machined aluminum bar stock
- Fully sealed multi-disc stainless steel center drag and large arbor
- Cassette Kit available in #5/6 and #6/7 with 3 spare spools

CLASSIC² FLY REELS

The Classic² range sums up what Snowbee is famous for, top-quality products at reasonable prices. This superb reel is precision molded from glass fiber reinforced nylon, to provide a lightweight rigid frame which is totally corrosion proof. The large arbor open cage design provides fast retrieve and minimal line memory off the spool. The rear control, stacked, multi-disc composite and stainless steel drag system has a smooth, sensitive detent to take the drag smoothly from 'off', to 'maximum' setting and provides amazing performance for a reel of this price. A modern V-spool design provides added backing capacity to all models.

The new gunmetal grey color is featured on the Classic² Reel as well as the Classic² Fly Reel Kit. These new kits offer legendary Classic² performance coupled with great value for the money. Supplied in a neat carrying case with dividers, each kit offers a Classic² Reel plus two matching spare spools. Ideal for the fly angler just starting out, or the more experienced, looking for a full kit without breaking the bank.

PRESTIGE STX BREATHABLE WADERS

What sets the Prestige STX apart from other breathable waders on the market is the outer layer, which incorporates our soft, “peach skin” ST material. Not only does this make the Prestige STX look and feel superb, but this material is totally flexible, rustle-free and silent.

We have incorporated this ST shell into a unique 3-layer material, which takes breathable wader technology to a whole new level. This ultra breathable material is a blend of 24% nylon, 59% polyester and 17% polyurethane which combine to provide strength and durability. The outer layer has also been coated with DWR treatment for further waterproof protection. The inner laminate utilizes our Vapour-Tec® breathable membrane, with breathability at 4,000g/m²/24hrs, and a hydrostatic water pressure rating of 15,000mm.

Most wader leaks are caused by punctures. To avoid this, a second layer has been added where high contact points are located. That means extra protection down the front of the legs from above the knee, down to the neoprene sock, as well as on the rear seat panel of the waders. These additional layers gives the Prestige STX a class-leading 6-layers, but by utilizing two separate layers, there is no loss in breathability.

In addition, the twin chest pockets are heat-welded onto the waders and utilize YKK Aquaguard® zippers for fly boxes or other accessories. Hand warmers rest behind the two chest pockets for added comfort in cold weather. Additional features include: a fully adjustable wading belt, multiple D-ring attachment points at the hip and chest areas, gravel guard clips, and interior chest pocket.

Available In Sizes: S, M, MS, ML, L, LS, LL, XL, XLS, XXL, MK, LK, XLK

RANGER² BREATHABLE WADERS

Recently updated and re-designed while offering superb performance in a lightweight form factor, our new Ranger² line utilizes a unique 70D x 500D Taslon Nylon material, which is laminated to our tried and true Vapour-Tec[®] breathable membrane, along with an inner Tricot laminated lining for additional strength and durability.

Our stockingfoot model features 4mm Neoprene socks with built-in gravel guards and lacing clips. The fully adjustable webbing braces feature a rear elasticated section that provides space and comfort when bending down or squatting. With opposite clips for the shoulder straps, users never have to worry about crossing straps. The shoulder straps can also be clipped together when converting the chest wader into wading pants.

Other features include waterproof outer and inner chest pockets, two handwarmer pockets, interior draw chords to tighten the chest area, D-ring attachment points at the hip, as well as a fully adjustable wading belt.

SFT WATERPROOF NEOPRENE GLOVES

Unlike traditional neoprene where the seams are butt glued and blind stitched, we utilize Seamless Fusion Technology (SFT) for complete protection and comfort. The seams are welded and then an ultra-thin, highly elastic sealing tape is applied. The result is a 100% waterproof, seamless pair of gloves. The neoprene used is a 4-way, high-stretch, 100% CR neoprene which is only 1mm thick. This allows for the most tactile feel available from a fishing glove today. With a tight fit and silicone palm and finger grips, handling fish and gear in cold weather extremes has never felt so comfortable.

Available In Sizes: XS, S, M, L, XL, XXL

Model	Description	Color	Price
1312400	SFT Neoprene Gloves	Mid Olive/Orange	\$55

FLIP-TIP NEOPRENE GLOVES

A sturdy pair of neoprene gloves made in a soft 2.5mm neoprene to keep you warm on the coldest days. Material panels run down each side of the gloves and between the fingers to provide added flexibility and comfort. The back of the gloves has a jersey knit lining, whilst the palms and fingers use a patterned rubber for extra grip. Thumb, index, and middle fingers feature "flip-up" tips with Velcro pads to hold them back to allow for knot tying without the need for taking the gloves off. The wrist also features an adjustable wrist cuff.

Available In Sizes: S, M, L, XL

Model	Description	Color	Price
13122	Flip-Tip Neoprene Gloves	Dark Green/Black	\$24

LIGHTWEIGHT NEOPRENE GLOVES

A lightweight neoprene glove with a nylon Jersey knit palm. The palm features a rubberized dot matrix pattern for extra grip. The thin neoprene allows the gloves to be worn while fishing or shooting, while also provided the perfect amount of warmth when needed. The tips of the thumb and index finger are left exposed to easily allow for the tying of knots or loading of ammunition without the need for taking off the gloves.

Available In Sizes: S, M, L, XL

FLY VEST BACKPACK

Combining a fly vest with the storage capacity of a backpack, the Fly Vest Backpack is the go to pack for a day's backpacking and fishing trip. The front section incorporates all the features you would expect on a modern vest, including two large pockets for fly boxes, with additional zippered pockets in front. Four mesh zipper pockets and two mesh sleeve pockets complement the interior and sides respectively. Forceps and snips can be attached via concealed retractable coils while a dedicated rod holder loop allows for hands-free carrying of your rod.

The rear pack offers ample storage to go hiking and fishing for a day. The large main compartment is expandable and doubles the storage capacity of the pack to 12L. A built in sleeve pocket can hold up to a 2L hydration pack. A quick-access pocket with an interior and exterior mesh pocket offer additional storage. D-rings, compression straps, and two rod tube holders, allow for the attachment of larger fishing gear and rods.

- 840D rip-stop polyester with PUT rear coating for water resistance
- Front fly vest / rear backpack design with up to 12L of expandable storage
- 2 dedicated rod tube holders + fly rod mounting loop for hands-free fly swapping
- Internal hydration bladder sleeve + expandable water bottle pocket
- Multiple D-ring, Velcro, and compression strap attachment points for accessories
- One size fits most

Model	Description	Color	Price
11625	Fly Vest Backpack	2-Tone Green Sage	\$149

ULTRALIGHT CHEST PACK

When the day doesn't require much gear, the Ultralight Chest pack is the perfect companion. Providing ample storage in a small form factor the Ultralight Chest-Pack features two, large fly box pockets, with further internal flap pockets for leaders and accessories. In front of these are two smaller zippered pockets, perfect for small fly boxes, tippet spools, and other small accessories. A ripple-foam fly-patch can fold down from the right-side fly box pocket.

Down either side of the main pockets, are two external coil retractors for forceps and nippers. These can drop neatly into the loop side clip attachments, to prevent them from swinging around and catching fly lines. A built-in rod holder loop will hold your rod securely while swapping flies.

- 840D rip-stop polyester with PU rear coating for water resistance
- 2 fly box pockets + 2 accessory pockets + 2 coil retractors
- Integrated fold-down ripple foam fly patch
- Built-in rod mounting loop for hands-free fly swapping
- Multiple D-ring and Velcro attachments for accessories
- One size fits most

XS TRAVEL LUGGAGE

DIMENSIONS

Overall: 37" x 13.5" x 14" high | 102L | 9.9lbs (4.5kg)
 Base Compartment (Cargo Hold): 36.5" x 13" x 5" | 40L
 Main Compartment (Duffel): 26.5" x 13" x 7.5" | 43L
 Side Storage Compartments: 6" x 13" x 7.5" | 9.5L (x2)

This single bag will carry all you need for a two week fishing trip with its innovative dual compartment design. The base compartment, also known as the *cargo hold*, is designed to carry all of your gear and hardware. This waterproof cargo hold can store up to a 10', 4pc rod, in addition to waders, boots, and other fly gear with its clamshell opening. Large zippered mesh pockets and an adjustable center divider attached at the base offer further organization.

The main compartment, or the *duffel* compartment, has ample room for all of the dry clothing needed for travel. The center compartment is cavernous, with 43 liters of volume to easily fit your travel necessities, with room to spare. On both sides of this center compartment are two flexible liner pockets that expand into the main compartment, perfect for storing dirty laundry, toiletries, or shoes.

With the two lockable main compartments, and an overall aesthetic that was designed to not draw the wrong kind of attention, traveling with precious fly fishing gear has never felt so secure.

- Dual compartment design with separated cargo hold and duffel compartments
- Clamshell opening with 2-way zip closure
- Pull-out luggage grab handle for easy transportation
- Adjustable compression straps
- Lockable zippers for main compartments
- 6mm impact resistant frame base

XS STOWAWAY CASE

To complement the XS Travel Luggage, we have developed the XS Stowaway Case. Fitting neatly into the cargo hold of the XS Travel Luggage, this case makes the perfect addition by providing a daytime case to carry your fishing gear, while clothes and travel goods can be left behind safely. Gear will be fully protected thanks to the 6mm impact resistant frame.

There is plenty of internal organization with adjustable dividers to accommodate rods, reels and other gear, along with three clear-view mesh pockets for smaller accessories like leaders and tippets. Another three quick-access sleeve pockets on the front offer additional storage.

By itself, the Stowaway Case is the perfect travel case to safely carry rods, reels, fly boxes, tippet, and all the gear needed for a fishing trip.

- Adjustable internal hook & loop dividers
- Clamshell opening with 2-way zip closure
- Rubber base stoppers
- Adjustable and removable shoulder strap + carry handle
- Lockable zippers for main compartment
- 6mm impact resistant frame base

DIMENSIONS

Overall: 36.5" x 10.2" x 5" high | 25L | 5.5lbs (2.5kg)
 Interior Storage Compartment: 36" x 9.7" x 4.5" | 26L

XS GEAR BAG

The XS Gear Bags is made from our 600D polyester combined with a PVC laminated backing, to ensure the shell is weatherproof. The bottom of the bag features a single- piece molded base that allows that bag to float in water.

Inside, four adjustable hook & loop dividers allow the main compartment to be arranged as one large pocket, or a configuration of up to 5 smaller compartments for total flexibility when organizing gear. Additional zippered and mesh pockets can store fly boxes, leaders and other small accessories. The XS Gear Bag can also double as a range bag to carry ammunition, spare magazines and other range or hunting gear.

- Large main compartment with adjustable hook & loop dividers
- 3 large exterior pockets for fly boxes and other medium sized accessories
- Built-in fly rod stand holder and rod tube holder
- Adjustable compression straps
- Lockable zippers for main compartment
- Single-piece impact base for protection and floating

DIMENSIONS

Overall: 19" x 12.5" x 12" high | 33L | 3.3lbs (1.5kg)
Main Compartment (Internal): 14" x 10" x 12" | 28L

CHEST WADER BAG

The innovative Chest Wader Bag is designed to "swallow" all kinds of chest waders, boots, clothing and tackle. The lid features a mesh panel that will allow damp waders and gear to air dry naturally. The bag is collapsible with its removable structural paneling for easy storage when not in use.

An attached, waterproof stepping mat rolls out to allow for changing in and out of waders while avoiding wet debris on the floor. The nylon divider flap inside the bag helps to separate muddy wading boots from your clothing. The adjustable shoulder strap doubles as an spare emergency wading belt. A simple, yet very thoughtful bag that anglers find extremely convenient to use.

- Large main compartment to store wet waders and gear
- Collapsible design can easily be stored away when not in use
- Built-in roll-out stepping mat to change in and out of waders on a clean surface
- Adjustable shoulder strap that doubles as a spare wading belt
- Lockable zippers for main compartment
- Single-piece impact base for protection and floating

DIMENSIONS

Overall: 16" x 16" x 7" high | 30L | 3.3lbs (1.5kg)

16200	Chest Wader Bag	Dark Olive	\$69

REEL BRIEF

DIMENSIONS
Overall: 15" x 11" x 6" high | 16.6L | 2.3lbs (1kg)

The Reel Brief features a hook & loop compatible, high-viz interior lining along with 8 adjustable, padded dividers to securely carry up to 10 medium-to-large sized fly reels. The Brief can also be used to organize spare spools, ammunition and other accessories. An additional front quick-access pocket provides extra space for leaders and other flat items. The lid, base, and side panels are rigid to offer additional protection. External padded grab handle and padded adjustable shoulder strap for easy handling.

- Holds up to 10 medium to large sized fly reels (up to #8/9)
- 8 adjustable, padded hook & loop dividers
- 840D rip-stop polyester exterior w/ high-viz Upland style interior
- Front quick-access pocket
- Carry extra reels, spare spools, ammunition and other small gear
- Reinforced lid, base and side panels

16206	Reel Brief	2-Tone Green Sage	\$59

REEL CASE

DIMENSIONS
Overall: 10" x 6" x 4" high | 4L | 0.8lbs (0.36kg)

Like the Reel Brief, the Reel Case is designed for the same purpose, only in a smaller form factor. Continuing the same Upland theme, the Case is designed to organize and carry reels, spare spools, ammunition, and other accessories with its 6 adjustable, hook & loop padded dividers. The lid, base and side panels have also been reinforced to protect the contents inside. External padded grab handle for easy handling.

- Holds up to 8 small reels (up to #3/4) or 4 medium to large reels (up to #8/9)
- 6 adjustable, padded hook & loop dividers
- 840D rip-stop polyester exterior w/ high-viz Upland style interior
- Front quick-access pocket
- Carry extra reels, spare spools, ammunition and other accessories
- Reinforced lid, base and side panels

3-IN-1 ULTRALIGHT HAND TROUT NET

DIMENSIONS

Frame: 17.5" x 20" | 0.75lbs (0.43kg)
 Handle (Short): 12-18" (30-46cm)
 Handle (Long): 25-45" (64-115cm)

The 3-In-1 Ultralight Hand Trout Net utilizes a knotless Rubber-Mesh net which has a flat bottom panel to minimize scale damage, ideal for catch and release. The hexagonal mesh has a rubber coating to prevent water and odor absorption. Featuring two telescopic, aluminum handles; the shorter handle allows for a flexible river landing net that extends from 12-18", ideal for competition fishing. The larger handle extends much longer at 25-45" (64-115cm), converting the net to a boat or bank landing net.

- Ultralight D-section aluminum frame
- Two attachable telescopic handles included (12-18" & 25-45")
- Knotless, hex Rubber-Mesh w/ flat-bottom basket
- Wide basket w/ angled tip for easy securing of fish
- High-density foam grips
- Attachment rings for magnets

PRESTIGE WADING STAFF

DIMENSIONS

Overall (Unfolded): 55" (140cm) | 0.75lbs (0.36kg)

A lightweight, slim-profile aluminum wading staff for increased stability in heavier waters. The 4-section design locks firmly in place with a sliding collar, preventing accidental collapses. At just 15" when collapsed, the wading staff packs down into a neat neoprene belt holster.

- Lightweight 4-section aluminum design extends to 55" (15" when collapsed)
- Ergonomic handle w/ wrist strap for positive grip
- Carbide steel tip and detachable trekking baskets for traction and stability
- Neoprene belt holster included with lanyard for extra security

SALTWATER FLY WALLET

DIMENSIONS

Small: 8" x 5.25" x 1.25" high | 0.3lbs (0.14kg)

Large: 9.5" x 7" x 1.5" high | 0.5lbs (0.23kg)

Snowbee Fly Wallets offer the serious saltwater fly fisherman huge storage capacity for large saltwater flies. Each Wallet holds 12 sealable, each capable of holding 10-20 large saltwater flies. With the ability to carry up to 200 flies, the Saltwater Fly Wallet completely negates the need to carry multiple fly boxes as the sets of bags are swappable.

On the front of the Wallets is a mesh pocket for tools, leaders, etc. There is a belt loop to carry on the waist or clip to attach to any convenient D-ring. The Wallet is also perfectly designed to carry fly-tying materials as well.
